# BUILDING STATISTICS

2015-16

---

DEPARTMENT OF ECONOMICS & STATISTICS

THIRUVANANTHAPURAM

2018

## **PREFACE**

Collection of Housing Statistics has much significant in the economy. Housing is one of the three basic needs of human being. In the context of formulation of Housing policy and programmes, the need for reliable Housing statistics has increased considerably.

The department has started the collection of Panchayat level building statistics (for rural area) of all districts in Kerala from 2001-02 onwards. From 2015-16 onwards we collected the data from urban area also. The information pertaining to the number of buildings newly constructed and completed, ownership of buildings, type of roofs, etc. of all districts of rural and urban sectors are included in this report.

The effort taken by the Labour & Housing Division of the Directorate of Economics & Statistics to bring out such a report is highly appreciable.

I hope this report will be a great use to administrators, researchers and scholars, planners and other data users. Any suggestion for improvement of this report is highly appreciated.

## **INTRODUCTION**

Housing along with food and clothing are the basic necessities of human beings. These are the very basic requirements because these are essential for the existence of human being. It reflects the economic status of a person in the society. Adequate housing facility is a reflection of a nation's economic prosperity and social well being.

The non-availability of adequate data on housing is a great drawback for formulation of housing policies. The serious gaps relates to housing inventory, current statistics of building activity consumption of building materials, employment generation in construction sector, data relating to building costs, methods of financing of housing, etc. realizing the importance of the collection, compilation and analysis of housing and construction statistics. Department of Economics and Statistics has made arrangement for regular collection of housing and building statistics, and this report contains data from rural and urban sectors of all 14 districts.

### **Need for housing & building construction statistics**

Reliable housing and building Construction Statistics are important in the formulation of housing policy and programs for improvement of living conditions of people especially the needy poor. Statistics in the housing and construction sector are needed for the following broad purposes

- Assessment of housing stock in the state.
- Assessment of housing condition and needs.
- Estimation of housing shortage.
- Evaluation of housing programs from time to time.
- Estimating the supply and demand of Construction materials, equipment and labour.
- Estimating the requirements of financial resources and for implementing the housing programs.
- Development of infrastructure like water supply, electricity, and other basic amenities.

The Housing sector plays an important role in the socio-economic upliftment of a society and a crucial role in the economy of the country. Reliable housing statistics are a pre requisite for the formulation of realistic housing policies. As per the recommendations of National Statistical Commission and direction from Government of Kerala, Department of Economics and Statistics is collecting Panchayat Level Building Statistics (Rural Sector) from 2001 – 02 onwards. From 2015-16 onwards Department is collecting the data from urban area also. The data were collected through District offices.

## CONCEPTS AND DEFINITIONS

The Concepts & Definitions of some of the important terms used in the report are given below.
