## P R E F A C E

This bulletin presents the Vital Statistics of the state for the calender year 1984. The data relating to vital events received from the registering authorities are processed and vital rates estimated.

This bulletin has been prepared by the vital statistics unit of the population division.

K. Balakrishnan Nair,  
Director of Economics and Statistics.

Trivandrum,  
15.6.1988.

**LIST OF TABLES**

**Table No.**

**Page**

|  |          |
|--|----------|
| 1. Total number of live births, deaths, still births, infant deaths and maternal deaths and their rates  | 4 to 7   |
| 2. 1981 census population of districts, rural - urban and sex-wise.  | 8        |
| 3. Total number of live births, deaths, still births, infant deaths and maternal deaths in corporations and municipalities having a population 30,000 and over.                    | 9 to 10  |
| 4. Total number of live births, deaths, still births, infant deaths and maternal deaths in corporations and municipalities having a population of 30,000 and over - district-wise. | 11       |
| 5. Births, deaths, still births, infant deaths and their rates in city corporation and municipalities - 1984.  | 12 to 14 |
| 6. Live births by type of attention at delivery (rural & urban)  | 15       |
| 7. Live births according to order of birth and literacy of mother for the state - rural - 1984.  | 16       |
| 8. Live births according to order of birth and literacy of mother for the state - urban - 1984.  | 17       |
| 9. Live births according to order of birth and literacy of father for the state - rural - 1984.  | 18       |
| 10. Live births according to order of birth and literacy of father for the state - urban - 1984.   | 19       |
| 11. Live births by birth order and occupation of father - Kerala - 1984 - rural.   | 20       |
| 12. Live births by birth order and occupation of father - Kerala - 1984 - urban.   | 21       |
| 13. Live births by birth order and age of mother - Kerala - 1984 - rural.  | 22       |
| 14. Live births by birth order and age of mother - Kerala - 1984 - urban.  | 23       |
| 15. Live births according to age of mother in the municipality and corporations of Kerala - 1984.  | 24 to 25 |

(Contd.)

|   |          |
|---|----------|
| 16. Live births by religion in the municipalities and corporations of Kerala - 1984.    | 26       |
| 17. Live births in Kerala by religion - district-wise - 1984.                           | 27       |
| 18. Month-wise distribution of live-births in Kerala - 1984 (rural/urban)               | 28       |
| 19. Sex ratio of live births in Kerala (district-wise) - 1984.                          | 28 to 29 |
| 20. Month-wise distribution of deaths in Kerala - 1984.                                 | 30       |
| 21. Deaths by age and sex - Kerala - 1984.  | 30       |
| 22. Deaths in Kerala by religion - district-wise - 1984.                                | 31       |
| 23. Deaths for some specified diseases in towns with population 30,000 and over - 1984. | 32 to 33 |
| 24. Infant deaths in Kerala by sex - district-wise - 1984.                              | 34       |
| 25. Infant deaths in Kerala by age and sex - 1984.                                      | 35       |
| 26. Maternal deaths in Kerala by age at deaths - 1984.                                  | 35       |
|   | .....    |

## VITAL STATISTICS BULLETIN 1984

### Introduction

The Registration of Birth and Death Act 1969 (Central Act) and the Kerala Registration of Birth and Death Rules 1970 issued thereunder, regulate the registration of Vital events and compilation of Vital Statistics in this State. The Act provides for a suitable machinery for effective registration of births and deaths and compilation of Vital Statistics. In this State, the Director of Panchayats is the Chief Registrar of Births and Deaths and the Additional Director, Directorate of Economics and Statistics is the Additional Chief Registrar. The District Panchayat Officers are statutory local registrars. In Panchayats, the Executive Officers are statutory local registrars and in the Municipalities and City Corporations, the Commissioners are the registrars. The Health Inspectors are the local registrars of the Municipality or Corporation. The local registrars are responsible for the maintenance of Birth and Death Registers at the lowest level. The data relating to Vital events received from the registering authorities are scrutinised, compiled and tabulated by the Vital Statistics Unit of the Directorate of Economics and Statistics. This Bulletin contains the results of the analysis of data for the year 1984.

### 2. Source of data:

In the Act, there are provisions giving details of the legal registrants or the persons required to register births and deaths. Information in respect of a birth is to be registered within 14 days and in respect of a deaths within 7 days. Separate registers containing prescribed forms are maintained for live births, still births and deaths. The relevant details of birth such as date of birth, sex of child, literacy, Occupations and religion of Mother and Father, age of mother, order of birth, type of attention etc. are recorded in the birth register and date of death, age, sex, occupation, religion, cause of death, etc. of the deceased are recorded in the death register kept by the local registrars. These details are transferred to the prescribed birth and death cards and such filled-in-cards are forwarded periodically to the Directorate of Economics and Statistics by the concerned registrars.

**3. Limitations of the data:**

The total number of registered events under Civil Registration is likely to be less than that of the actual events occurred because of under registration and incomplete coverage. On analysing the data received it is seen that the registered birth and death rates in the Urban area are high due to the fact that the registration is defacto and the Hospital facilities in the Urban areas are utilised by the people in the Rural areas also.

**4. Processing of data:**

About 5.5 lakhs birth cards and 1.2 lakh death cards for the year 1984 have been received in this Directorate for analysis. The data are processed through manual and mechanical tabulation.

**5. Vital rates:**

The birth and death cards received from the reporting agencies are used for arriving at the registered Vital rates noted below:

**(a) Crude Birth Rate:**

Crude Birth rate is the number of live births per thousand population. (Mid-Year)

**(b) Crude Death Rate:**

Crude Death rate is the number of deaths per thousand population (Mid-Year)

**(c) Infant Death Rate:**

Infant death rate is the number of deaths of infants below one year of age out of thousand live births in the year.

**(d) Maternal Death Rate:**

Maternal Death rate is the number of such deaths per thousand live and still births.

**(e) Still Birth Rate:**

The Still Birth rate is the number of such births per thousand births including still births.

**6. Birth and Birth rates of the State for the year - 1984**

A total of 5.49 lakhs of live births were registered in the State during the year 1984, of which 3.23 lakhs were in the rural areas and 2.26 lakhs in the Urban areas. The registered birth rate of the State during the year 1984 works out to 20.32 as against 20.57 during

1983. The district-wise break-up of birth rate, death rate etc. are presented in table 1. Malappuram registered the highest birth rate of 28.55. Other districts having a birth rate over and above the state average are Kozhikode (23.67), Wayanad (20.91) and Cannanore (21.53).

**7. Death and Death rates of the State for the year 1984:**

During the year 1984, 1.21 lakh deaths were registered in the State, of which 0.84 lakh deaths were in the rural areas and 0.37 lakh in the Urban areas. The registered death rate for the state during 1984 was 4.47 as against 4.50 in 1983. The highest death rate of 5.70 is recorded in Kozhikode district and the lowest of 3.28 in Idukki district. The deaths rates in Quilon (3.68), Idukki (3.28), Malappuram (3.96), Ernakulam (4.44), Trichur (4.39), Wayanad (3.76) and Cannanore (4.39) districts are below state average.

**8. Infant death rate for the year 1984:**

The total number of infant deaths during the year 1984 were 7041. During 1983 this figures was 8659. The infant death rate in 1984 was 12.83. The highest infant death rate during 1984 was registered in Trivandrum (17.87) and the lowest in Malappuram (8.22).

**9. Maternal Death rate - 1984:**

During 1984, the total number of maternal deaths registered were 82, of which 74 were in rural and 8 in urban areas. The maternal death rate in the State worksout to 0.15.

**10. Still birth rate during the year 1984:**

The total number of still births during the year 1984 was 4175, of which 1577 was in rural areas and 2598 in Urban areas. The still birth rate in the state is 7.55 during 1984 as against 6.26 in 1983. The highest still birth rate of 18.00 was recorded in Kozhikode district whereas the lowest of 1.66 was in Trivandrum district.

**11. Conclusion:**

Even though the Registration of Births and Deaths Act is in force, the data collected through Civil Registration system suffers under registration of events particularly in rural areas. The success of Civil Registration depends to a large extend on the civic consciousness and co-operation of the people. Attempts are being made to improve registration of birth and death by educating public on the importance and necessity of vital registration through intensive publicity and propaganda.

1983. The district-wise break-up of birth rate, death rate etc. are presented in table 1. Matsappuram registered the highest birth rate of 28.22. Other districts having a birth rate over and above the state average are Kozhikode (31.23), Malappuram (30.90) and Cannanore (31.23).
