## *Preface*

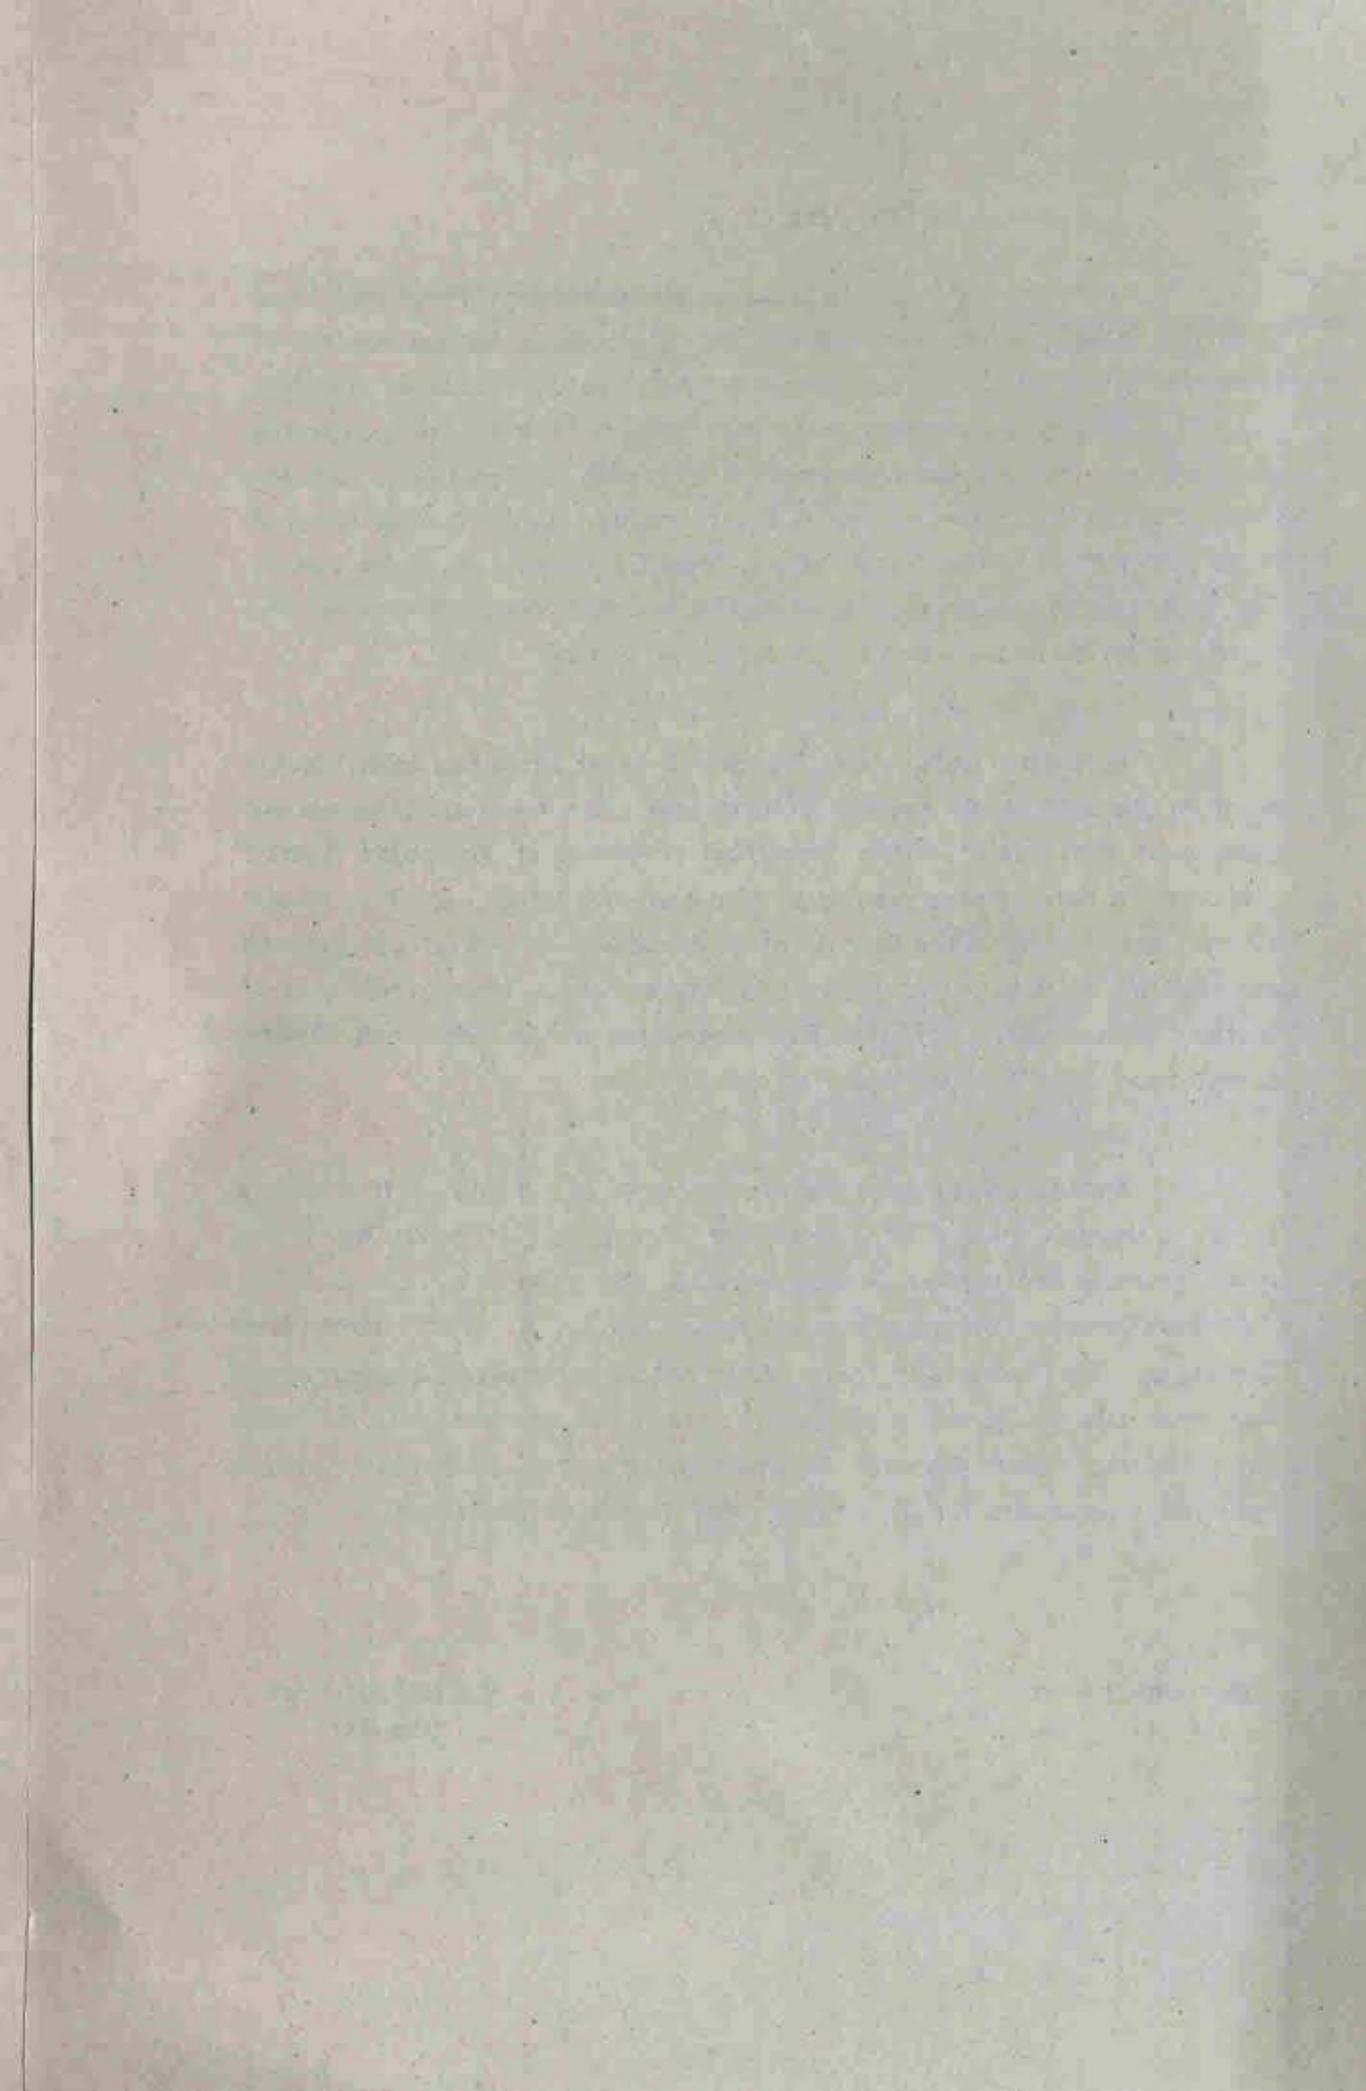

I have great pleasure to bring out this publication "Panchayat Level Statistics 2006", an important and valuable data book of the Directorate of Economics & Statistics. This Department has taken various measures to collect and publish primary and secondary data from the very bottom level to cater the needs of decentralized planning process. This is with an objective to help the planners and administrators of Local Bodies to familiarize with the availability of resources at their command and enabling them for planning from the bottom. The first issue of Panchayat Level Statistics was published on 1996, when the three-tier system of Local Self Government came into existence.

The present publication "Panchayat Level Statistics 2006" is the third in this series. All possible efforts have been taken to cover various sectors of development. The Statistical personnel of Kasaragod district collected the data for this publication through a multi stage operation. Almost all members of staff in the District have an involvement in this collection and consolidation of data. This report was prepared by a team of officers of District Office under the effective supervision of Sri P.V.Augen, Deputy Director and Sri P.V. Abdul Rajib, Research Officer.
