GOVERNMENT OF KERALA

PRICE STATISTICS 2007

**PRICE DIVISION
Directorate of Economics & Statistics
Thiruvananthapuram**

PREFACE

The basic objective of economic development is output growth, price stability and poverty alleviation. Agricultural prices are important economic variable in an economy. Price data is very important for policy formulation and administrative and executive decisions.

Economic and Statistics department is the nodal agency for the collection, compilation and dissemination of price statistics in the state. Department is collecting various prices such as Farm Wholesale and Retail prices, wholesale price of commodities, Retail price of essential commodities, Dietary price, Retail price of Ayurvedic raw materials, Retail price of 18 Forest produces, price of coir and husk etc. Apart from this, department is also collecting other prices for the calculation of parity index, wage index, consumer price index. Monthly wholesale price index is also estimated by price division. The most important problem being feed in the collection of price data is the disappearance of selected items and appearance of new items in the marketing centre.

This report is prepared by the joint effort of all offices in the price division of this Directorate. In this situation, I appreciate and congratulate all the offices of the price division for their sincere efforts for the preparation of this report.

Thiruvananthapuram.
14-12-2009
