PRICE STATISTICS

2012

PRICE DIVISION

Directorate of Economics & Statistics, Thiruvananthapuram

PREFACE

The Price is a value expressed in terms of money at a specified time and place. Agricultural price is an important economic variable in an economy. Price data is very important for policy formulation and also for taking very important administrative and executive decisions.

Economics and Statistics department is the nodal agency for the collection, compilation and dissemination of price statistics in the state. The department is collecting various prices such as Farm Wholesale and Retail prices, Market wholesale prices of various commodities, Retail prices of essential commodities, Prices of Dietary articles, Retail prices of Ayurvedic raw materials, Retail prices of 18 Forest produces, Price of coir and husk, Coconut Shell, Cocoa, Waste Paper, Salt etc. Apart from this, the department is collecting prices for the calculation of Parity Index, Wage Index, Consumer Price Index and Wholesale Price Index which are being estimated by the Price Division.

This report "Price Statistics 2012" is prepared by the joint effort of all the officers working in the Price Division of this Directorate. In this situation, I appreciate and congratulate all the officers of the Price Division for their sincere efforts and involvement in the preparation of this report.

Thiruvananthapuram.
05-03-2014

V. Ramachandran
Director General

INTRODUCTION

The Department of Economics & Statistics collects various types of prices. The prices data are generally classified into three, viz., Farm price, Wholesale price, and Retail price. These data are utilized for the computation of various economic indicators. In order to have a picture of the price movements in the economy, various indices are being computed. These include (1) Consumer Price Index, (2) Wholesale Price Index, (3) Parity Index between prices received and paid by farmers and (4) Agricultural Wage Index. Further, the prices data after scrutiny and compilation are forwarded to the Central and State Governments and various agencies like the Coconut Development Board, Coir Board, State Agricultural Prices Board, Reserve Bank of India, Spices Board, Coconut and Arecanut Development Board and a host of other agencies, who want them for Policy decisions and day-to-day needs.

The Prices Division of the Department of Economics & Statistics under the Additional Director (Prices) exercises the technical control over the collection of various types of prices and uses the data for the computation of various indices and for transmission to the various data users. These include the following price.

FARM PRICES

The Department of Economics and Statistics is collecting the Farm Price of major agricultural commodities cultivated by the farmers of the State from 1954 onwards. Farm Price is usually classified into Farm Wholesale price and Farm Retail Price.

Farm Wholesale Prices

The Farm Wholesale Price of a commodity is defined as the average wholesale price, which the farmer gets at the village or farm site. In the case of certain crops farmer may sell it while it is in the tree itself. The Farm Wholesale Price data are being collected from all Taluks in the State on a fortnightly basis. For this purpose, 60 wholesale commodities are selected which have a marketable surplus.

Farm Retail Prices

The department is also collecting farm retail prices, which is the price the farmer gets when the farm products are sold in smaller quantity. Farm retail prices of 45 items are collected monthly from all taluks on the last working day of every month.

MARKET WHOLE SALE PRICE

Wholesale prices are being collected under the Market Intelligence Scheme. The wholesale price is the rate at which a relatively large transaction of purchase regularly for further sale is effected. The wholesale price is neither the maximum nor minimum nor average price of a commodity on a particular day, but should relate to the modal price, the price at which most of the transactions take place during the peak marketing period of the day.

RETAIL PRICES

The "retail price" of a commodity is defined as the price, which the ultimate consumer pays for relatively small transactions of the commodity. The following are the different types of retail prices being collected by the Department:

1. Weekly and Monthly Retail prices of goods and services consumed by the working class family (agricultural and industrial workers) in Schedules III (a) & III (b) respectively for the construction of Consumer Price Index.
2. Retail prices of additional items collected from District Headquarters as appendix to III (a) being catered to the data users as and when needed.
3. Retail prices of 50 essential commodities collected from District Headquarters (daily).
4. Retail prices of 20 essential commodities collected from District Headquarters (weekly).
5. Retail prices of 18 notified species of forest produce.
6. Retail prices of Ayurveda raw materials.
7. Retail prices of dietary articles (quarterly).
8. Market rate of waste paper.

Retail Prices of Essential commodities

Variation in the retail prices of essential commodities have an immediate effect on the income of individuals and consequently on the economy as a whole. While a rise in prices impose considerable pressure on the consumers, a fall below a certain level, affect the real income of the subsistence farmers, with serious consequence on the economy. Thus a close study on the absolute prices of various commodities and their movements is highly essential for taking appropriate measures for achieving the desired stability in prices.

The Department contributes to a great extent to cater to this need. Retail prices of 50 essential items are collected daily from the district head quarters in the schedule particularly designed for it. Along with this, the prices of 20 selected items are also collected on a weekly basis.

Market Rate of Waste Paper

Market rate of different items of waste paper are being collected from district head quarters on a monthly basis. This is mainly intended for fixing rate for the disposal of wastes paper from Government Offices.

Coir prices

Information on prices of selected varieties of coir at important Coir producing centres of the State is being collected by this Department weekly. This Department also collects the information on prices of raw and rotted husk.

Weekly prices of spices

Weekly prices of Nutmeg, Mace, Cinnamon and cloves, Pepper, Cocoa, Vanilla are collected from Kottayam, Idukki, Wayanad and Thrissur Centers

Wholesale & Retail Prices of Salt

Weekly whole sale and retail prices of salt are collected from 3 centres viz., Thiruvananthapuram, Ernakulum and Kozhikode

Monthly Wholesale and retail prices of Salt with stock are collected from 14 district head quarters on the last working day of the month.

Weekly prices of Cocoa

Weekly prices of Cocoa are collected from 9 centres viz. Pulimkunnu, Kottayam, Kattappana, Pala, Thodupuzha, Thrissur, Moovattupuzha, Thiruvalla and Kothamangalam.

PRICE INDEX NUMBERS

Index Numbers are the devices to measure the relative movements in variables. They are used to compare the level of certain phenomenon between different times or between different places or between categories such as persons or objects. It is a technique of estimating general trends in prices, production and other economic and social variables and have been rightly called the "Economic Barometers". Most of the current indices are indicators of changes over time in respect of economic characteristics like prices, output, wages etc. These are termed as price indices, production indices, wage indices etc. Index numbers play a vital role in business planning and drafting of executive policies. The different types of indices being included in this book are the following.

1. Consumer Price Index (CPI) Numbers for IW & AL with base 1998-99 = 100
2. Whole Sale Price Index (WPI) Numbers with base 1952-53 = 100 (Agri. year)
3. Parity Index Numbers with base 1952-53 = 100 (Agri. Year)
4. Wage Index Numbers with base 1952-53 = 100 (Agri. Year)

Consumer Price Index Numbers

Consumer Price Index (CPI) is designed to measure the changes over time in the level of retail prices of a fixed set of goods and services (Consumption basket) consumed by an average family of a defined population group at a particular place. Retail price of a commodity is defined as the price which the ultimate consumer pays for relatively small transactions of the commodity. The consumption pattern and the prices paid by consumer will normally vary from family to family. Hence the section or segment for which Index number is referred is to be clearly defined. (Eg. For Industrial workers (IW), for Agricultural Labourers (AL) etc).

Wage Index

The data on daily wages of various categories of agricultural labourers are being collected from 20 villages in the State. Wage index is prepared using these wages.

The wage indices are being prepared for the following categories.

1. Skilled labour
 - (a) Carpenter
 - (b) Mason
2. Paddy field labour
 - (a) Bunding (Men)
 - (b) Transplanting (Women)
3. Other agricultural labour
 - (a) Tilling
 - (b) Head load (Women)

Parity Index Numbers

Parity index numbers indicate the level of the prosperity of the farmers. It indicates the state of affairs of the farmers receiving value for their products and expending money for cultivation of the crops and for their own living. It is the ratio of the index of prices received by the farmers and the index of prices paid by the farmers, expressed as percentage

Wholesale Price Index (WPI)

The wholesale prices being collected under the Market Intelligence Scheme are utilised for computing WPI for agricultural commodities. In the calculation of the index 17 important agricultural commodities are included. Commodity wise, Group/sub group wise wholesale price indices are being prepared by this department.

Price Review 2012

Wide variations are seen in the retail prices when the state average retail prices of Essential commodities in January 2012 are compared with that of December 2012. The prices of most of the items increased considerably.

During this period 17% to 52% increase was seen in the retail price of different varieties of Rice. The prices of almost all the vegetable items increased during the year. Massive increase was seen in the price of Onion. The comparative statement of monthly average retail prices of essential commodities are shown below

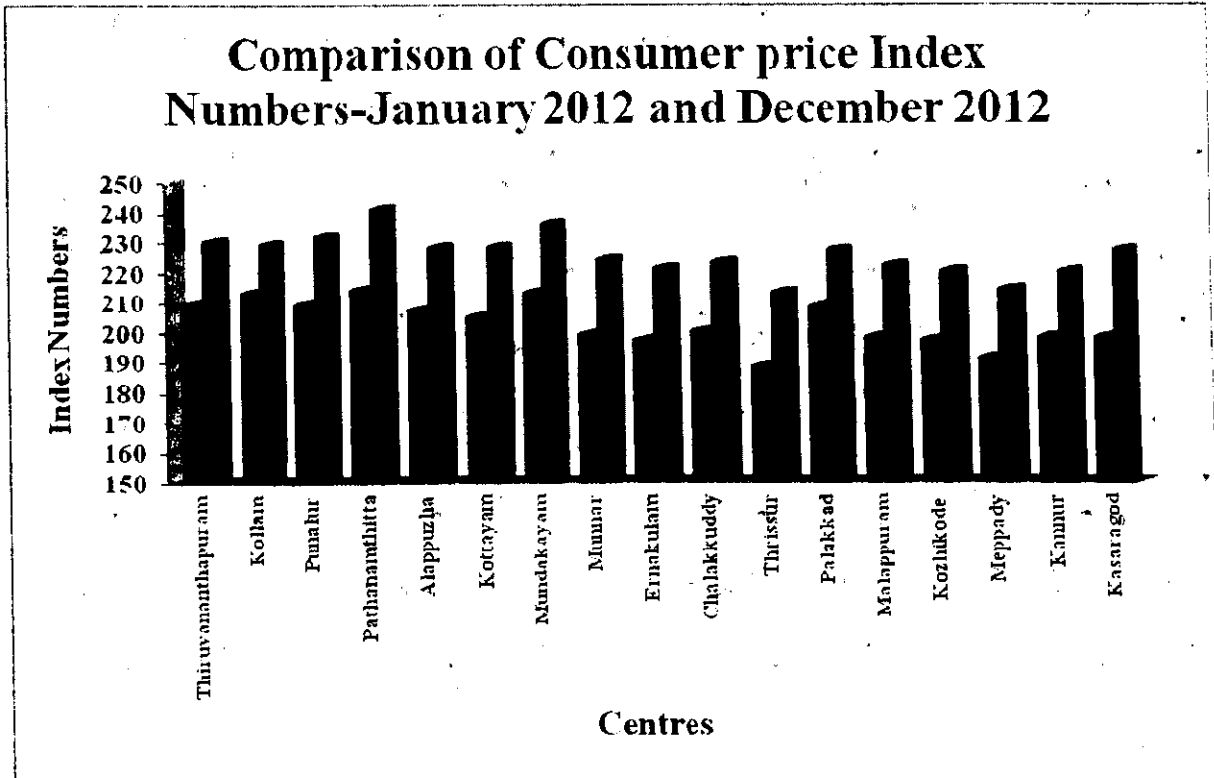

Comparative Statement of Monthly State average retail Prices of Essential Commodities in January 2012 and December 2012
