EXPORT AND IMPORT STATISTICS

PREFACE

This Hand Book on Export and Import Trade Statistics of Kerala is the first of its kind giving detailed information on the trade pattern of the State. Most of the data presented relate to the Seaborne trade which is the most important for the State's economy. Lack of data in respect of road-borne movement of goods is serious gap in the field of Trade Statistics of the State. An Attempt is made to furnish data upto the latest period possible. The sources of the data are shown at the foot of the tables.

It is hoped that this Hand Book will be of value to those who are interested in the development of trade and commerce of the State.
