District Hand Book - 2005

Malappuram

Department of Economics and Statistics

Malappuram.

PREFACE

This publication "District Hand Book- 2005" of Malappuram district is a very informative publication which contains statistical data pertaining to almost all sectors of development of economy. The comparative figures of the district with that of Kerala given in the sectors such as education, state income, health, agriculture, etc. will be of immense help to everyone to understand the overall development of Malappuram district at a glance.

I appreciate Sri. Gorkey Jose, Deputy Director, Malappuram who piloted this venture and realized this by co-ordinating a team of officers in his office. I also extend my appreciation to all officers in Malappuram district office who made contributions to this and who rendered their service and spend time to compile and computerize the data.

I think this will be a source of statistics for the planners, researchers and administrators who are working in the field of planning and administration for the social and economic development of Malappuram as well as of the state. This may be useful for local level planning also in the state.

ACKNOWLEDGEMENT

The "Hand Book-2005" of Malappuram District is a first attempt from the Department of Economics & Statistics. Considering the demand of statistical information for Local level Planning and Research purpose we designed this publication by giving more weight age to the sectors like Agriculture, Manufacturing & Industries, Education, Demography etc.

This publication includes 13 chapters dealing with the important statistical data of Malappuram and Kerala. We tried our best to give the up-to-date information in this Hand Book. I hope that this book will be a suitable reference to the Planners, Administrators, Researchers and persons working with statistical data. The data included in this Hand Book are taken from the Govt. Publications like Economic Review, Statistics for Planning etc.

This publication is an outcome of earnest effort rendered by the Research Officer Sri. M. Girish Babu. The services of Sri. T. Sankaranarayanan, Price Inspector, Sri. Musthafa Dilip, Statistical Inspector and Sri. N.K.Moideen, LD Compiler is also acknowledged. I appreciate all the staffs of this office for making this publication as a fruitful one.

Suggestions for improvement are welcome.

T. Gorkey Jose
Deputy Director

MALAPPURAM DISTRICT

1. GENERAL

1.1 Introduction

Amalgamating the distant and backward areas of the erstwhile Kozhikode, Perinthalmanna and Ponnani taluks of Palakkad, Malappuram district was formed on the 16th of June 1969. The Nilgiris (blue hills) of Tamil Nadu in the east and the Arabian sea in the west, provide natural boundaries. In the north, it is bounded by Kozhikode and Wynad, and in the south, by Palakkad and Thrissur districts. The district has a geographical area of 3550 Sq. Kms., which is 9.13% of the total area of the state.

The location of Malappuram district is 75° to 77° east longitude and 10° to 12° north latitude, in the geographical map. Like most of the other districts of the state, Malappuram too consists of three natural divisions; lowland, midland and highland. The low land stretches along the sea coast, the midland in the centre and the highland region towards the east and north eastern parts. The topography of the district is highly undulating; starting from the hill tops covered with thick forests on the east along the Nilgiris, it gradually slopes down to the valleys and the small hills, before finally ending on the sandy flat of luxuriant coconut groves in the west.

Four important rivers of Kerala, flow through Malappuram district. They are Chaliyar (Beypore river), Kadalundipuzha, Bharathapuzha and Tirurpuzha. Chaliyar has a length of 169 Kms. And originates from Illambaleri hills in Tamilnadu. Important tributaries of this river are Chalipuzha, Punnapuzha, Pandiyar, Karimpuzha, Cherupuzha and Vadapurampuzha. Chaliyar traverses through Nilambur, Mampad, Edavanna, Areakode, Vazhakkad and flows into the sea at Beypore in Kozhikode district. Of these rivers, only Chaliyar is perennial; all others get dried up in summer and hence Malappuram District is prone to draught. In Tirur and Ponnani taluks, Kayal (back waters) like Biyyamp, Veliyancode, Manur, Kodinhi etc. offer fishing facilities.

The district has a total forest area of 103417 hectare, i.e., 28.47% of total geographical area. The major forest area is concentrated in Nilambur and Wandoor blocks and Melattur in the Western ghats. Teak, Rosewood, Ventek, Choropin, Mahogoni, etc. are the important trees. The district has also several man made plantations, mainly of Teak.

Malappuram district is not rich in mineral wealth. Laterite stone is found abundantly in the midland areas. Deposits of limeshells are found in the coastal belt, mainly in Ponnani and Kadalundinagaram. The coastal sands of Ponnani and Velliyancode contain heavy minerals like ilmanite and monosite. China clay, the principal raw material for porcelain industry, is found abundantly in many parts of the district. Karuvarakundu in the district derived its name from iron-ore cutting and blacksmithy, which flourished in the district from very ancient times. Nilambur region of the district, forms part of the hidden Wynad Goldfields. The two main zones for auriferous gravels are in Nilambur valley, namely Pandipuzha-Chiyarpuzha zone and Punnapuzha-Maruthapuzhazone.
