Preface

The Economic Census, a centrally sponsored scheme was conducted in the State by the Department Economic and Statistics. The Central Statistical Organisation launched this programme in 1977, with a view to bridge the data gap in the unorganised segments of different sections of the economy particularly in the non-agricultural sector. The present edition is fourth in series. The other three editions were conducted in 1977, 1980 and 1990 respectively.

The IVth Economic Census enumerated all entrepreneurial activities in rural and urban areas of the state and collected information on number on enterprises and employment there in by location, type of activity, nature of operation etc. This will provide a frame for detailed follow up surveys covering the sub sectors of unorganised activities.

This report present a detailed analysis of the data colected through the census conducted in the state. Detailed Statistical tables on various parameters of economic activity have been given in this report. It is prepared by Sri. P. Kochu Narayana Pillai, Joint Director under the guidance of Smt. S. Indira, Additional Director. The conduct of the census, which was a challenging task, would not have been successful without the sincere co-operation of the field staff.

The tabulation work was undertaken by the Computer Division of this Department. Sri. Sajith Kumar, Compiler assisted in the work.

I am also grateful to all who have contributed for the successful completion of this task. My thanks are also due to officers of other departments who co-operated with us for the successful conduct of this Census.

I hope this report would be useful to Government department planners, policy makers and researchers.

FOURTH ECONOMIC CENSUS

Economic Census- 1998

Chapter – I

Introduction

The economic development of a nation depends to a great extent on the balanced growth of its agricultural and non-agricultural sectors. Agricultural sector provides labour and raw material for the growth of the industry while industry gives various types of inputs for the rapid growth of the agricultural sector. For developing long term programme and policies for the balanced growth of these two sectors and for overall economic development of the nation, sound and reliable statistical data on a time series basis is a prerequisite.

In the case of agricultural sector, efforts were made from very early times to build up a systematic data system. The data on area and yield, size class wise distribution of agricultural holdings, tenure and tenancy states, land utilization pattern, source and extent of irrigation and the details on other inputs are available on a time series basis from Agricultural Census and crop estimations are available from Live stock Census conducted on regular intervals.

In the case of non-agricultural sector, data on Registered manufacturing establishment, state transport undertakings – both road and water transport, major ports, Banks, Insurance companies, Registered educational institutions, Hospitals etc are being collected on a regular basis. However there is dearth of reliable data in respect of other organised segments mainly in the private sector like, manufacturing establishments using power and employing less than 10 persons or those not using power but employing less than 20 persons, road and water transport, trade construction service etc.

The un-organised sector however evinces a different picture. Data on various aspects of this sector are either not available at regular intervals or is scarce. The sector however assumes an important place when the unemployment potential is taken into consideration. The unorganised sector also accounts for generating a large share of the nations income and also plays an important role in capital formation.

National Sample Survey organisation undertook certain sporadic attempts to collect information regarding the activities of non-agricultural enterprises from the sample households through various rounds of sample enquiries.

During the population census 1971 certain basic information such as the type of ownership, number of persons working, type of power /fuel used etc pertaining to unorganised sector were canvassed. These surveys and census though collected certain information were partial in nature and were not adequate to fill the data gaps required for statistical planning.

It was felt that an integrated approach should be evolved to collect information from the unorganised segment of various sectors by conducting comprehensive

economic censuses. Thus to bridge the data gap in the unorganised sector of the economy central statistical organisation launched the economic census 1977. It was later conducted in 1980, 1990 and 1993 through out the country.

Economic Census – 1977

The first Economic Census was conducted in Kerala along with the other states during October-November 1977, with the technical guidance given by the central statistical organisation, Government of India to provide necessary information on employment activity, value of output, type of ownership, type of fuel used etc. regarding the non-agricultural establishment.

For the census an enterprise was defined as an undertaking engaged in production and/or distribution of goods and/or services not for the sole purpose of own consumption.

The census was followed by two sample surveys; one in 1978-79 covering for detailed study unorganised manufacturing sector and the second in 1979-80 devoted mainly to trade, transport, hotels and Restaurants, storage and warehousing and services.

The programme of sample surveys taken up as a follow up of the 1977 Economic Census was so formulated that a proper tie-up was ensured between the results of already established enquires like the annual survey of Industries and statistics available through administrative channels.

The census was undertaken with the participation of the Directorate of Economics and Statistics in various States/Union Territories except the Union Territory of Lakshadweep.

The economic census 1977 adopted a dual approach viz. (i) House visiting and listing approach for the urban areas and also for villages with a population of more than 5000 as per 1971 population census (ii) Village level enquiry for the remaining villages in the rural areas.

Economic Census – 1980

The second Economic Census was conducted in May – June 1980. The enterprises studied under Economic Census were characterised by high mortality and mobility and also were dealing with wide variety of products. For planning proper development of the different sectors, an in-depth study of various aspects are essential. With this view, the second Economic Census conducted in 1980 covered all enterprises engaged in activities related to both agricultural (except those engaged in crop production and plantations) and non-agricultural.

Unlike in the first Economic Census, where both house listing and village land enquiry were adopted, the Economic Census 1980 adopted complete enumeration of all enterprises, for which house listing was essential. As such it was considered advantageous to organise the Economic Census in conjunction with the house listing operation of the population census 1980.

In the second Economic Census, basic information about the enterprises such as the nature of activity (Perennial or Seasonal) category of industry, type of ownership, social group of the owner, total unemployment calculated separately for hired labour etc were collected.

Three follow up surveys were designed and carried out by the NSSO, first in 1989-84 on hotels and restaurants, transport storage and warehousing, second in 1981-85 on unorganised manufacturing and third in 1985-86 on wholesale and retail trade.

The Economic Census 1990

The third Economic Census was conducted after a lapse of ten years. Though the scheme for conducting the census was approved by the Planning Commission in 1986, it was not carried out due to financial stringency.

The census carried out in 1990 was complete enumeration of all enterprises in the unorganised agricultural and non agricultural sectors excluding those engaged in crop production and plantation in rural and urban areas of the country as was done in 1980 census. The fieldwork of the census was carried out along with the house listing operation of 1991 population census as in the case of previous census.

Basic information on each enterprises regarding its location, activity, nature of operation, type of ownership, social group of owners etc. were collected in the census also.

Fourth Economic Census 1998

The 1998 Economic Census is fourth in the series. Government accepted liberalisation as the economic policy. To highlight its importance and also to monitor the scheme, designed under this policy large volume of data on unorganised sectors of the economy was essential. This compelled the Government to launch the IV Economic Census soon after III Economic Census.

The object of census was to develop a sound sampling frame to enable detailed surveys subsequently to fill up data gaps in the unorganised sector and to meet the requirement of various data users and to assess the impact of economic reforms an enterpreunal activities in the unorganised sector in general.

The method of complete enumeration of house holds was resorted to in Kerala also as is the case with other states and it covered both agricultural (excluding crop production and plantations) and non agricultural enterprises.

The census is financed by the Government of India and the overall responsibility of conducting the census rested with the State Directorate of Economics and Statistics. For the smooth functioning of the census a steering committee was constituted with Chief Secretary as the Chairman, Planning Secretary as Census Commissioner and Director of Economics and Statistics as Convener.

Similarly a district level co-ordination committee was also set up in the district with Collector as the Chairman and Deputy Director as the convener

The filed work was carried out by selected unemployed Graduate registered with the local employment exchange and paying honorarium. The departmental staff supervised the work. In order to ensure the quality of data and Timely Completion of work co-ordination and supervision at all levels are highly warranted.

The work involves visiting of 80 lakhs and odd structures in the state and to collect details about the use of these structures ie residence, enterprises, vacant or combination of these.

For the work the enumerators visited the census village or UFS in rural/urban areas as the case may be. Each enumerator was allotted with the work of one or more enumeration units and each enumerator was given the responsibility of listing about 200 households' areas. In hilly and difficult terrain's the workload was appropriately reduced. Thus the entire work was organised with the help of existing officers and staff at District and lower levels. For organising and monitoring the Economic Census work, nuclear cell was created at the Directorate of Economics and Statistics. This massive operation was carried out during May-July 1998.

Before the enumerators and supervisors were put in their jobs, in their levels of training with an interval of 15 to 30 days were given. The first level was organised the District Statistical Officers at the State Head Quarters, Thiruvananthapuram, second for the supervisory staff of the district head quarter, organised at their respective districts by the District Statistical Officer and third and final level of training was given to the field workers (or enumerators) at their Taluk Head Quarters. The following are the thrust points collected in the Census.

- (1) The number of enterprises – agricultural and non-agricultural with rural and urban break up.
- (2) The extent of private ownership, number of perennial establishments, establishments without power and establishments without premises.
- (3) Persons usually working in these Enterprises/Establishment (agricultural and non-agricultural) with a break up of adult, male, adult female and children separately for rural and urban areas.
- (4) To know the number of hired workers in rural and urban areas sexwise under both agricultural and non-agricultural sectors.
- (5) To know the number of enterprises financed by IRDP or any other poverty alleviation, etc.

The various forms canvassed during the census are as follows.

- (1) House list (HL)
- (2) Enterprise list (EL)
- (3) House list abstract (HLA)
- (4) Enterprise list Abstract (ELA)

The Enterprise List Abstract provided summaries for the primary enumeration blocks. The Enterprise List Abstracts were further scrutinized and coded in the district statistical officers, processed manually and the Taluk and District summary results were generated. The detailed tabulation work was carried out utilising the computer facilities available in the Directorate and District Offices of this Department. The processing was done in the Computer Division of the Directorate and the staff in this division was entrusted the supervision and control of data entry, processing, etc.

The data was given to C.S.O in floppy and the tables were given in floppy and as hard copy.

The report was published in four sections

- Chapter 1 - Introduction

- Appendix II - Detailed Tables

Concepts and definitions

The following concepts and definitions were adopted in the fourth economic census- 1998.

1 Unit:

A unit located in a house is one entity engaged in some gainful economic activity involving production and distribution of goods and or services like workshop, manufacturing unit an office, a firm, a school, hospital, places of workshop etc.

2. Premises:

Premises are the part of the census house occupied by a unit/ household. If the activity of the enterprise carried out by a unit/household extends beyond the boundaries of a single house to a group of continuous houses and in rare cases a groups of houses in close proximity the entire group of houses in regarded as a single premises.

3. Enterprises:

An enterprise is defined as, "An undertaking or an activity or undertaking engaged in production and or distribution of goods and services not for the sole purpose of own consumption but also for sale."

4. Enterprises Without Premises:

Some enterprises that carry on their activities in the open area or outside the census building/ houses, such as road side vending, hawkers and peddlers etc. Another type of enterprises carried out without having any specific location such as ice cream vendors, vegetable sellers, fish sellers, etc, performing their activities by moving from one place to another. All these above type enterprises are known as Enterprises without premises.

5. Agriculture Enterprises:

An agriculture enterprise is defined as one engaged in livestock production, agricultural services, hunting, tapping and game propagation, forestry and logging and fishing. Enterprises engaged in activities pertaining to agricultural production and plantations were not covered under the census.

6. Non-agriculture Enterprises:

Enterprises engaged in all other activities other than agricultural are known as non-agricultural enterprises.

7. Own Account Enterprises:

Own account enterprises are those enterprises, which are managed and operated only by the members of the household. In other words enterprises operated without engaging hired workers are Own Account Enterprises.

8. Establishments:

Enterprises engaged in economic activities with the assistance of at least one hired worker on a fairly regular basis are defined as establishments.

9. Industrial classification of Enterprises:

Enterprises might belong to one of the following sectors of the economy.

Viz. (i) Agriculture (Excluding crop production and plantations).

(ii) Mining and quarrying.

(iii) Manufacturing

(iv) Electricity, gas, water supply and sanitation

(v) Construction

(vi) Whole sale and retail trade

(vii) Transports, storage and warehousing, communication services

(viii) Finance, Insurance, real estate and

(ix) Business services and community, social and personal services.

Detailed instruction were given for recording full description of the activities processing carried by the enterprises which would provide a basic for their appropriate classification according to NIC Code 1987.

10. Perennial Enterprises

Enterprises run more or less regularly through out the year or in a particular season(s) are perennial activities. Non-perennial activities such as beating of drum, playing of bands/pipes etc. are carried out only during marriages or other ceremonial occasions spread through the year. Fairly regular tuition is classified as engagement in perennial activity. A non-perennial or seasonal enterprise is one that carries on its activities only for a part of the year or on seasons.

11. Private ownership of an enterprises

Ownership of means of production in the hands of a private individual is treated as private ownership as the name suggests. An enterprise is treated as if it is managed by single or a group of private persons and with no participation of Government both in terms of management and shares. Private enterprise taking loan from Government is not treated as Government enterprises.

12. Co-operative Enterprises

All enterprises registered under the Co-operative Societies Act are treated as Co-operative Enterprises.

13. Public Enterprises

The Enterprises which are owned by Central Government or State Government or other Public Undertakings are Public Enterprises.

14. Enterprises with Power/Fuel

The Enterprises which use power or fuel for carrying out their entrepreneurial activity are classified in this type.

15. Persons usually working

This denotes the total number of persons usually working in the enterprises including members of the household and other hired workers engaged in the activity.

16. Hired persons usually working

This denotes the daily average number of hired workers who normally work in the enterprise on regular basis.

CHAPTER II

Results in Brief

I (1) The Economic Census is the official count of all economic activities (Enterprises). In the 1998 Economic Census plantation and crop production is not covered. All other economic activities were surveyed.

(2) Number of Enterprises and Employment

In the state, there were 15.65 lakhs enterprises as per 1998 census. 38.49 lakhs persons are working in these enterprises. The number of enterprises and number of persons working in enterprises during 1990 were 12.22 lakhs and 38.49 lakhs respectively. The average number of persons working per enterprises is 0.41 in 1998 as against 0.37 during 1990. There is 28% increase in the number of enterprises during 1998 compared to 1990 and corresponding increase in employment is 22.6 %. The number of enterprises and persons working etc are detailed in Table 1.

Table 1
Number of Enterprises and Persons working

Location	Type of Enterprises	No. of Enterprises			Persons working			Average	
		1990	1998	%	1990	1998	%	1990	1998
1	2	3	4	5	6	7	8	9	10
Rural	Agricultural	78209	236845	66.98	107477	337345	68.14	0.73	0.70
	Non-Agricultural	747077	1003840	25.58	1775244	2422714	26.72	0.42	0.41
	Total	825286	1240685	33.48	1882721	2760059	31.79	0.44	0.45
Urban	Agricultural	32042	21048	-52.23	46889	33867	-38.45	0.68	0.62
	Non-Agricultural	364940	302938	-20.47	1353610	1055183	-28.28	0.27	0.29
	Total	396982	323986	-22.53	1400499	1089050	-28.60	0.28	0.30
All	Agricultural	110251	257893	57.25	154366	371212	58.42	0.71	0.69
	Non-Agricultural	1112017	1306778	14.90	3128854	3477897	10.04	0.36	0.38
	Total	1222268	1564671	21.88	3283220	3849109	14.70	0.37	0.41

Out of the total 15.65 lakhs enterprises 10.22 lakhs (65.29%) enterprises are Own Account Enterprises ie, owned and operated by household members. In other words only one third of the enterprises engaged hired labour. There are 7.79 lakhs hired labour in the state. As regarding the location status of Agricultural and non-agricultural enterprises it can be observed that 91.84% of the agricultural enterprises are in rural area and 8.16% agricultural enterprises in urban area. The corresponding proportion for non-agricultural enterprises is 76.82% and 28.18% respectively. The following Table gives the details of enterprises and employment according to their activity.

Table No. 2
Distribution of Enterprises and Employment according to Activity Status

Average employment per enterprises in the state is 2.46. The District wise distribution of enterprises and employment are given in Table 3. As regards the number of enterprises in the state Ernakulam occupies the highest position with 12.43% followed by Kannur with 9.63%. Considering the total number of employment Ernakulam tops the list with 14.68% followed by Thiruvananthapuram with 10.14%. The number of enterprises and employment were lowest in Wayanad with 2.61% and 2.12% respectively.

Table No. 3
District wise Number of Enterprises and Persons working

Sl. No.	District	Enterprises		Employment	
		No.	%	No.	%
1	2	3	4	5	6
1	Kasaragod	63265	4.04	128261	3.33
2	Kannur	150648	9.63	320269	8.32
3	Wayanad	40908	2.61	81543	2.12
4	Kozhikode	134402	8.59	325706	8.46

14	Thiruvananthapuram	11143	4.68	3481	17.40	71773	9.16	48884	9.35
	State Total	237882	100.00	20011	100.00	783738	100.00	523040	100.00

In all the districts the Own Account Enterprises out numbered the establishments both for Agricultural Sector as well as for Non-agricultural Sector. The districtwise distribution of Own Account Enterprises shows that out of the total Own Account Enterprises in the State 15.66% were in Kannur followed by Eranakulam with 13.22%. In Thiruvananthapuram the percentage of Own Account Enterprises in Agricultural Sector is only 4.68%. In the case of Establishments in Agricultural

Sector, Thiruvananthapuram stood first with 17.40% followed by Alappuzha with 15.28%. The respective percentage for Kannur is only 4.99. Kasaragod has the lowest percentage as regards both Own Account Enterprises and Establishments having agricultural activity. In the case of enterprises having non-agricultural activity Ernakulam stood first both for Own Account Enterprises and establishments, with 10.56% and 14.89% respectively.

There were 38.49 lakhs persons working in different enterprises in the State. Out of the 38.49 lakhs only 3.71 lakhs are employed in Agricultural Sector and the remaining 34.78 lakhs are employed in non-agricultural Sector. The percentage distribution of employment in Own Account Enterprises and establishments shares that 14.22% of employment in Own Account Enterprises are from Kannur followed by Ernakulam with 13.28% in Agricultural Sector.

Table 5 gives the district wise number and percentage of employment according to activity.

Agricultural Enterprises

In the following section, the dominant features of the enterprises in the agricultural sector are detailed. According to the Census there were 2.58 lakhs enterprises in the Agricultural Sector which comes to 16% of the total enterprises in the State. Out of the total agricultural enterprises 91.84% are in rural area and 8.16% are in urban area. There were 3.71 lakh persons working in Agricultural enterprises with 90.83% in rural areas.

The details of employment status in agricultural enterprises for rural and urban were given in Table No.6 and 7 of Part I. The average number of persons working in agricultural enterprises is 1.44.

It can be observed from the above said table that out of the total agricultural enterprises 92.24% are Own Account Enterprises and these enterprises employ 3.04

lakh persons according for 82% of the total persons working in the agricultural enterprises. The Table No.8 in the Part I gives the selected characters of the agricultural enterprises. It is seen that 95.37% of the agricultural enterprises are not using power/fuel for its entrepreneurial activity. As regards the ownership 4.31% are owned by SC, 1.57 by ST and 42.06 by other Backward Communities.

As regards the number of enterprises and employment under different ownership viz. Private NPI, Other private, Co-operative and Government, more than 99% enterprises comes under private ownership in rural as well as urban area. The average employment in agricultural enterprises is 1.44 for the State and the average employment per agricultural enterprises under Government is 5.50 and that of Co-operative ownership is 3.04. As regards rural urban comparison the average employment per enterprises urban area is more than that in rural area for different type of ownership. (Table 7 of Part I)

In agricultural establishments 90.75% of enterprises were having 1 to 5 persons working and the total percentage of work force in these enterprises comes to 61.77%. The highest percentage of establishments i.e. 40.90% were having 2 persons working and the number of persons working in these enterprises comes to 24.82% of the total. The number of enterprises having more than 100 persons working was very small. As regards to the Own Account Enterprises in Agricultural Sector 99% of the enterprises and 99% of the persons working are in the employment size class 1 to 5. (Table 9 & 10 of Part I)

The financial assistance for different types of agricultural enterprises is given in Table 6 & 7 below.

Non-Agricultural Enterprises

There were 13.07 lakh non-agricultural enterprises in the State, which comes to 83.5% of the total enterprises. The total employment in non-agricultural enterprises was 34.78 lakhs and it is more than 90% of the total employment. The average employment per enterprises is 2.66, which shows that the units are tiny and about 60% of the units are Own Account Enterprises. The number of enterprises and employment are given in Table 1 of Part I.

Out of 13.07 lakhs non-agricultural enterprises 7.84 (60%) lakhs are on account enterprises and 5.23 are establishment.

In the case of total non-agricultural enterprises, about 76.82% are concentrated in rural area and only 23.18% is situated in urban area. Following the same pattern urban area accounts for 17.46% and 31.75% respectively. 82.54% of the Own Account Enterprises and 68.25% of the establishments are situated in rural area.

As regarding the distribution of enterprises according to major activities in non-agricultural sector retail trade, community-social and personal service and manufacturing are major types of enterprises and all together occupies more than $\frac{3}{4}$ th of the total non-agricultural enterprises only 45% were Own Account Enterprises ie in urban-area the establishment out numbered on account enterprises.

The major activity wise number of enterprises in non-agricultural sector shows that 36.33% of enterprises are retail trade in the State. The percentages for rural and urban are 35.48 and 39.17 respectively. In rural area 42.26% of Own Account

Enterprises are retail trade and the percentage in urban area is 46.19. The percentage of establishment carried out retail trade in rural and urban areas were 23.19 %and 33.19% respectively. Table No. 8 and 8.1 gives the number of non-agricultural enterprises by activity wise and its percentage distribution. (Out of the different major activities, Retail trade, Manufacturing and Community, Social & Personnel services are prominent in the State.
