PREFACE

The dearth of housing statistics is a serious lacuna in the formulation of realistic housing policies at the State and National level. With a view to fill up this gap Housing Statistics cells have been organised in the various states at the instance of the National Buildings Organisation, Government of India.

The Housing Statistics cell in the Bureau of Economics and Statistics in Kerala was set up in September 1967. A three tier system has been adopted in the state for the collection of housing statistics - one unit each in the Public Works Department and in the Directorate of Municipalities and a Co-ordinating Unit in the Bureau of Economics and Statistics. The Unit in the Public Works Department collects statistics on building construction activities undertaken by the Public Works Department and the Unit in the Directorate of Municipalities collects data on building construction activities in the Municipalities. The cell in the Bureau of Economics and Statistics Co-ordinates the work in the other two cells and transmits the data received from these two cells to the National Buildings Organisation, after proper scrutiny. The Co-ordinating cell in the Bureau is directly responsible for the collection, consolidation and furnishing of the data relating to building construction activities in the three city Corporations of the State. Apart from the Statistics on building activities, the co-ordinating cell in the Bureau collects market prices of building materials and wages of building labour from selected centres in Kerala on a quarterly basis.

This publication presents data on building activities, prices of building materials and wages of building labour. Data on building activities in the City Corporations have not been presented due to the incomplete nature of the data received from the Corporations. It is hoped that this publication will throw some light on the house construction activities in the different parts of the state and will be of use to those interested in the field.

This brochure has been prepared by Smt. P. L. Sreedevi, Assistant Director and Shri A. V. Mathai, Research Officer with the assistance of Smt. V. K. Kousallia, Research Assistant. Shri P. P. Philipose, Joint Director, guided the work.
