Preface

Every plan and development process has to be properly assessed and implemented on the basis of reliable statistics. The department of Economics and Statistics is the apex and nodal agency for the collection, compilation and dissemination of statistical data pertaining to various sectors of the economy in the state. Different price indices prepared by the department acts as the barometer of the economy. Stock and arrivals of agricultural and other essential commodities play a crucial role in the determination of prices. There is a growing demand for data relating to market arrivals and stocks from different users such as research scholars planners etc. This publication entitled "Report on market arrivals for the year 2016" contains details of market arrival from villages and wholesale market centres.

To get reliable data in respect of stock and arrival of agricultural and other essential commodities is a herculean task. The spirit of enquiry of field investigators enabled the data collection success. In this context, the co-operation extended by individuals, government departments, trade and commercial establishment etc to make available the required data and the work done by the field level officers of this department and staff of headquarters are greatly acknowledged.

This publication is the outcome of sustained efforts made by Mr. Ratheesh.S, Statistical Assistant grade-1, Mrs. O.U. Sandhya Kumari, Research Assistant, Sri.S. Ajayaghosh , Regional Statistical Officer under the supervision and guidance of Sri. K. Damodaran, Additional Director (Prices). Hope this report will be highly useful for formulating strategies in distribution of Agricultural commodities in the state. Suggestions for improvements of this publication are most welcome.

V. Ramachandran
Director General

Thiruvananthapuram,

Report on Market Arrivals for the year 2016

The department of Economics and Statistics, the nodal agency for the collection, compilation and dissemination of data collects different types of prices at Taluk and District level. These prices are forwarded to Central and State Government and other different agencies. Market Intelligence is one of the main price collection scheme of the department. The price, stock and arrivals of different commodities collected through the M.I Scheme provides information on price, stock and arrival of agricultural and essential commodities.

It is obvious that the fluctuations in the price level overturn the living condition and daily life of common man especially fixed wage earners. There are number of factors which influences the price situation of commodities. Stock and arrival of commodities is one among them. The information pertaining to stock and arrival of agricultural and essential commodities enables the government for taking appropriate policy decisions. Since the scope and coverage of price collection have undergone drastic changes, it is the responsibility of the department to furnish qualitative and reliable price data.

The scheme for the improvement of Market Intelligence was implemented in the state during the second five year plan period. Market Arrivals are from villages and also from other markets. Market Arrivals from villages include the quantities brought by the farmers as well as the quantities brought by village merchants or commission agents etc. The arrivals from other markets include the quantities arrived in a wholesale market from any other wholesale market. From the markets arrivals, outgoing quantities are the quantities which go outside the wholesale market either for sale in the retail market for local sale or for despatch to outside markets.

The present report contains market arrivals of 43 items comprising 104 varieties. There are 41 price collecting centres in the state. In order to make a close watch on the collection and transmission of price collected, there are two Regional Statistical Officers. The Regional Statistical Officer, Regional Office Calicut look after the MI price collection mechanism of northern six districts and Regional Statistical Officer, Thiruvananthapuram controls other eight districts price collections.

V.Ramachandran
Director General
