## Preface

The Price is the value of commodity or service expressed in terms of money at a specified time and place. Price data is crucial for economic forecasting, allowing governments and institutions to predict future economic conditions. This aids in planning and implementing policies to address potential challenges. In a market economy, prices signal to producers and consumers about the scarcity or abundance of goods and services.

The Department of Economics and Statistics is the nodal agency for the collection, compilation and dissemination of price statistics within the state. The department is collecting various prices such as Farm Wholesale and Retail prices, Market wholesale prices of various commodities, Retail prices of essential commodities, Weekly wholesale price of Coir and Coconut Husk, Coconut Shell, Cocoa, Waste Paper and other Scarp Items, Salt etc. Apart from this, the department is collecting prices and compiling various indices such as Parity Index, Wage Index, Consumer Price Index and Wholesale Price Index of Agricultural commodities which are being estimated by the Price Division.

The Department of Economics and Statistics in Kerala, publishes comprehensive price statistics annually. This report “**Price Statistics 2023**” is prepared by the joint effort of the officers working in the Price Division of this Directorate. I would like to express my cavernous gratitude to Mr. G. S. Rajath, Additional Director for his invaluable assistance, insights, and encouragement throughout the development of this work. Special thanks to Mr. Rajendran Nair S., Assistant Director for the commitment and expertise which greatly enriched the quality of the report. Suggestions for improvement of this report are appreciated.

## **INTRODUCTION**

The Department of Economics & Statistics collects various types of price data. These prices are generally classified into three categories: Farm Price, Wholesale Price, and Retail Price. The data are utilized for computing various economic indicators. To understand the price movements in the economy, several indices are generated, including (1) the Consumer Price Index, (2) the Wholesale Price Index, (3) the Parity Index between prices received and paid by farmers, and (4) the Agricultural Wage Index.

After scrutiny and compilation, the price data are forwarded to the Central and State Governments and various agencies such as the Coconut Development Board, Coir Board, State Agricultural Prices Board, Reserve Bank of India, Spices Board, Coconut and Arecanut Development Board, and several other institutions for policy decisions and day-to-day requirements.

The Prices Division of the Department of Economics & Statistics, under the Additional Director (Prices), exercises technical control over the collection of various types of prices and uses the data for computing indices and for transmission to different data users.

This publication includes a brief analysis of farm prices for major crops during 2023. The analysis focuses on the state average prices of selected crops and their variations throughout the year. It examines maximum and minimum prices, seasonal fluctuations, and prevailing market trends. To support understanding, the analysis is supplemented with graphical representations and tables showing monthly state average prices.

## **FARM PRICES**

The Department has been collecting farm prices of major agricultural commodities cultivated in the State since 1954. Farm prices are classified into Farm Wholesale Prices and Farm Retail Prices.

### **Farm Wholesale Prices**

The Farm Wholesale Price of a commodity is defined as the average wholesale price, which the farmer gets at the village or farm site. In the case of certain crops farmer may sell it while it is in the tree itself. The Farm Wholesale Price data are being collected by Taluk Statistical Officer, from 77 Revenue Taluks in the State on a fortnightly basis. For this purpose, 81 items wholesale commodities which have the marketable surplus are selected.

### **Farm Retail Prices**

Farm Retail Prices refer to the prices received by farmers when they sell farm products in smaller quantities. Retail prices of 63 items are collected by the Taluk Statistical Officer from 77 revenue taluks on the last working day of each month.

## **MARKET WHOLE SALE PRICE.**

Wholesale prices of agricultural commodities are collected under the Market Intelligence Scheme. The wholesale price refers to the rate at which a relatively large transaction, generally for further sale, takes place. It is not the maximum, minimum, or average price of the day, but the modal price, representing the rate at which most transactions occur during the peak marketing period.

## **RETAIL PRICES**

The “retail price” of a commodity is defined as the price, which the ultimate consumer pays for relatively small transactions of the commodity. The following are the different types of retail prices being collected by the Department:

1. Weekly and monthly Retail prices of goods and services consumed by the working class family (Agricultural and Industrial workers) in Schedules III (a) & III (b) respectively for the construction of Consumer Price Index.
2. Retail prices of additional items collected from District Headquarters as an appendix to III (a) being catered to the data users as and when needed.
3. Retail prices of 50+28 essential commodities collected from District Headquarters (daily).
4. Retail prices of 20+9 certain essential commodities collected from District Headquarters (weekly).
5. Retail and wholesale prices of Fruits collected from District Headquarters (Weekly).
6. Retail prices of 18 notified species of forest produce.

7. Retail prices of Ayurveda raw materials.
8. Retail prices of dietary articles (quarterly).
9. Market rate of waste paper, Coir, Spices, Salt, Cocoa, Fruits, Coconut Husk, Coconut Shell.

## **Retail Prices of Essential Commodities**

Variation in the retail prices of essential commodities have an immediate effect on the income of individuals and consequently on the economy as a whole. While a rise in prices imposes considerable pressure on the consumers, a fall below a certain level, and affect the real income of the subsistence farmers, with serious consequence on the economy. Thus a close study of the absolute prices of various commodities and their movements is highly essential for taking appropriate measures for achieving the desired stability in prices.

Retail prices of 50 + 28 essential items are collected daily from the district headquarters in the schedule particularly designed for it and reports sent to the office of the Chief Minister on every working day. Along with this, the prices of 20 + 9 selected items are also collected on a weekly basis. We are also collecting weekly retail and wholesale prices of Fruits.

## **Market Rate of Waste Paper And Other Scrap Items.**

Monthly prices of various waste paper categories are collected from District Headquarters. These data are mainly used for fixing rates for the disposal of waste paper from Government offices

## **Weekly Wholesale Price of Coir.**

Prices of selected varieties of coir from major coir-producing centres in the State are collected weekly.

## **Weekly Wholesale Price of Coconut Husk.**

Weekly prices of raw and rotted coconut husk are collected from important coir-producing centres in the State.

## **Weekly Prices of Spices.**

Weekly prices of nutmeg, mace, cinnamon, cocoa, cloves, pepper, and vanilla are collected from Kottayam, Idukki, Wayanad, and Thrissur districts.

## **Weekly Wholesale, Retail Prices & Stock of Salt.**

Weekly wholesale, retail price and stock of salt are collected from 3 centers viz. Thiruvananthapuram, Ernakulam and Kozhikode.

## **Monthly Wholesale, Retail Prices & Stock of Salt.**

Weekly wholesale, retail prices, and stock of salt are collected from three centres: Thiruvananthapuram, Ernakulam, and Kozhikode. Monthly wholesale and retail prices with stock details are collected from all 14 district headquarters on the last working day of each month.

## Weekly Prices of Cocoa

Weekly prices of dry cocoa are collected from eight centres: Thiruvalla, Meenachil, Muvattupuzha, Kothamangalam, Kalady, Kattapana, Mananthavady, and Idukki.

## Price Index Numbers

Index Numbers measure relative movements in economic variables. They help compare levels across different times, regions, or categories such as persons or objects. Index numbers estimate general trends in prices, production, wages, and other economic and social variables and are often called “Economic Barometers.”

They play a key role in business planning and policy formulation. The indices included in this publication are:

1. Consumer Price Index (CPI) Numbers for IW & AL with base 2011-12 = 100
2. Whole Sale Price Index (WPI) Numbers with base 2015-16=100 (Agri. year)
3. Parity Index Numbers with base 1952-53 = 100 (Agri. Year) for January 2020 to June 2020 and base 2019-20 = 100 (Agri. Year) for July 2020–December 2020.
4. Wage Index Numbers with base 2019-20 = 100 (Agri. Year)
5. Consumer Price Index Rural Urban Combined (CPI (R/U/C))with base 2018 =100

## Consumer Price Index Numbers

The Consumer Price Index (CPI) measures changes over time in the retail prices of a fixed basket of goods and services consumed by an average family in a specific population group. Since consumption patterns and prices vary from family to family, it is necessary to clearly define the group for which the index is intended—for example, Industrial Workers (IW) or Rural Labourers (RL).

## Wage Index

Daily wage data for various categories of agricultural labourers are collected from 28 centres in the State. The wage index measures changes in the wage rates of different types of skilled and unskilled labour over time.

Wage indices are prepared for the following categories.

- 1) Skilled labour
  - a) Carpenter
  - b) Mason
- 2) Paddy field labour
  - a) Bunding (Men)
  - b) Transplanting (Women)
- 3) Other agricultural labour
  - a) Rubber Tapping (400 Trees)
  - b) Coconut Plucking
  - c) Arecanut Plucking
  - d) Head load (Women)

## **Parity Index Numbers**

Parity index numbers indicate the level of the prosperity of the farmers. It indicates the state of affairs of the farmers receiving value for their products and expending money for cultivation of the crops and for their own living. It is the ratio of the index of prices received by the farmers and the index of prices paid by the farmers, expressed as a percentage.

## **Wholesale Price Index (WPI)**

Wholesale prices collected under the Market Intelligence Scheme are used to compute the Wholesale Price Index (WPI) for agricultural commodities. A total of 24 major agricultural commodities are included in the index, and commodity-wise as well as group or sub-group wise indices are prepared.

## Data Analysis for Major Crops

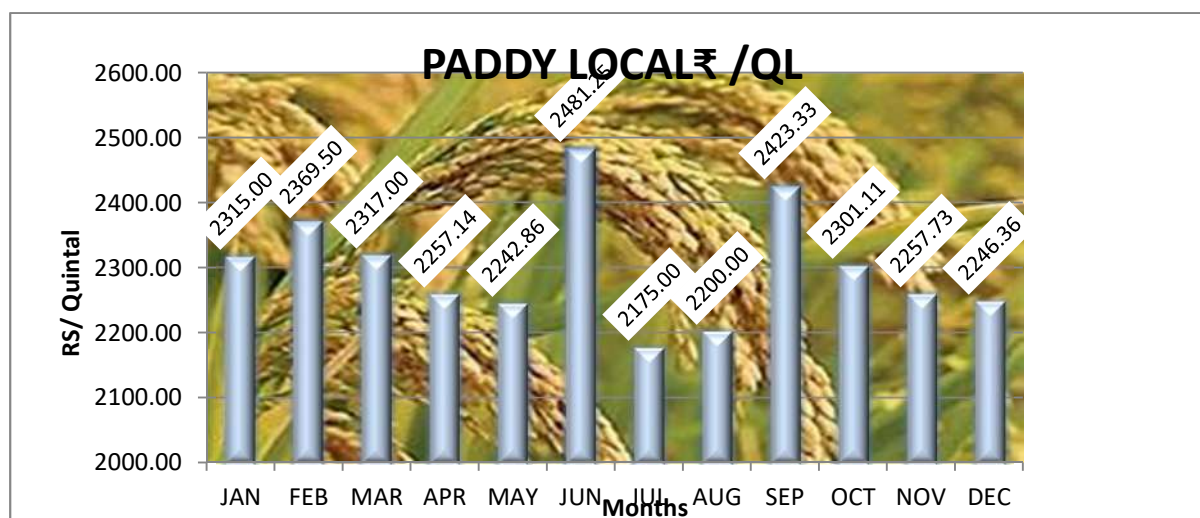

Monthly state average price of some major crops (as per EARAS records) were observed. Major price trends during the year 2023 were noted, tables and graph of the same included along with major observations.

### 1 .PADDY LOCAL ₹ /QL.

#### Observations:

- **Highest Prices: June September (Rs 2423.33).**
- **Lowest Prices: July (Rs 2175.00)**
- **Range :** The price difference between the highest and lowest is 248.33 per Quintal.

| MONTHS | State Average (Rs / Qtl) |
|--------|--------------------------|
| JAN    | 2315.00                  |
| FEB    | 2369.50                  |
| MAR    | 2317.00                  |
| APR    | 2257.14                  |
