

REPORT ON SIXTH ECONOMIC CENSUS 2013

DEPARTMENT OF ECONOMICS AND STATISTICS
Government of Kerala

PREFACE

The Economic Census is the official count of all the establishments (ie, units engaged in production and/ or distribution of goods and services not for the purpose of sole consumption) located within the geographical boundaries of the country. It provides the latest number of establishments in the state and the number of persons employed therein along with their geographical distribution, type of structure, type of ownership etc. The 6th Economic Census was conducted in the State during the period from May 2013 to June 2013.

The conducting of the Economic Census was a mammoth task, including imparting of training to enumerators selected from open market and wide publicity campaign to facilitate the collection of information from all the sectors of the economy.

The remarkable feature of the 6th Economic Census is that the Enumeration Blocks of "Population Census-2011" were used as the lowest unit for enumeration. This census is the maiden venture for the collection of handicraft/handloom establishments separately and the employment generation in this sector. The Collection of Statistics Act 2008 was invoked to collect timely and accurate information about all establishments in the state.

This report is prepared on the basis of the tables prepared from the scanned data of Schedule 6A, ie, House and Establishment Listing Schedule provided by CSO. The officials of Central Statistical Office and MOSPI extended their whole-hearted support, guidance and fund for the successful completion of the 6th Economic Census in time. I take this opportunity to express my sincere thanks to each one of them.

I am extremely thankful to Sri. Jose Cyriac, the former Chief Secretary, Government of Kerala and Sri. V.S. Senthil, the former Principal Secretary, Planning and Economic Affairs Department, for the support and guidance in carrying out the 6th Economic Census in the state.

I also extend my sincere thanks and appreciation to all the members of the State Level Steering Committee and District Level Monitoring Committee for their efforts in making the census a grand success in the state.

Report on 6th Economic Census

I take this opportunity to appreciate the sincere special efforts undertaken by Smt.A.Dhanya, Assistant Director, Labour & Housing Division and Smt.Sujatha.B, Research Officer, Price Division who, under the guidance of Sri. Sajeevu.P.P, Joint Director, Agricultural Census Division dedicated their valuable time in the preparation and timely completion of this report in addition to their normal duties. I also hereby acknowledge the contributions made by Sri.A.Murugan, Assistant Director, IIP Division in the preparation of tables incorporated in this report.

I also thanks to Sri. S. Hareesh, Research Assistant for his whole-hearted assistance for the preparation of the lay-out and design of this report and the assistance rendered by Sri. Nadirsha, Statistical Assistant Grade II, DES.

And finally, I express my gratitude and appreciation to all the Officers and Staff in the DES and Districts who have contributed in diverse ways to the success of this survey.

I hope this report will be useful to the planners, policymakers, academicians and researchers. Suggestions or improvements on this report are most welcome.

Chapter I

INTRODUCTION

Economic Census is a periodic count of all the economic entities (i.e., units engaged in production and / or distribution of goods and services not for the sole purpose of consumption) functioning within the geographical boundaries of the country. It is conducted on an all India basis covering all the States and Union Territories.

In order to achieve the balanced growth of agricultural and non-agricultural sectors, sound and reliable statistical data is a prerequisite to formulate policies and programmes for the overall economic development of the nation.

The Central Statistics Office in the Ministry of Statistics and Programme Implementation conducted Sixth Economic Census during January 2013 to April 2014 in collaboration with Directorates of Economics & Statistics in all the States and Union Territories. As per the Gazette of India No.2495 Part II Section 3 Subsection II dated 20/12/2012, Sixth Economic Census is notified, in exercise of the powers conferred by Sections 3 & 4 of the Collection of Statistics Act 2008 (No.7 of 2009 read with rules 5 & 7) and the Collection of Statistics Rules 2011.

Economic Census provides detailed information on operational and economic variables, activity wise, of the establishments of the country including the distribution at all India, State, District, and Village / Ward levels for comprehensive analysis of the structure of the economy (micro, macro, and regional levels) and for benchmark purposes. The database also serves as a sampling frame for drawing samples for socio economic surveys being conducted by Government and research organizations.

The Sixth Economic Census was intended to provide up-to-date information on number of establishments and number of persons employed therein and a frame of all establishments engaged in various economic activities both in the organized and unorganized sectors of the economy (excluding crop production, plantation, public administration, defence and compulsory social security activities).

Chapter II

PREVIOUS ECONOMIC CENSUSES

Economic Census - 1977

The **First Economic Census** in Kerala was conducted during October -November 1977 in connection with All India Census under the guidance of Central Statistical Organization. The subject coverage was limited to the Non-Agricultural Enterprises employing at least one hired person on a fairly regular basis. The census was followed by two sample surveys, one in 1978-79 covering Manufacturing Sector and the other in 1979-80 covering Trading Enterprises including Transport, Hotels and Restaurants, Storage and Warehousing and Services. The follow up sample surveys were taken up with a tie-up with the results of first Economic Census and the data collected through Annual Survey of Industries and data available with Administrative Channels.

The Economic Census 1977 adopted a dual approach. (i) House Listing approach for the urban areas and also for villages with a population of more than 5000 as per the 1971 Population Census in rural areas and (ii) Village Level enquiry for the remaining villages in the rural areas, where the population is less than 5000.

Economic Census-1980

The **Second Economic Census** was conducted during May - June 1980. The second census was conducted with an enhanced scope and coverage. The census covered all enterprises including Agricultural and Non-Agricultural except direct cultivation and plantations. The second Economic Census was conducted along with house listing operations of Population Census 1981. With an objective of getting more comprehensive data on Non-Agricultural sector, 12 sectors like Mining and Quarrying, Manufacturing, Electricity, Gas and Water, Retail Trade, Wholesale Trade, Communications, Transport, Community, Social and Personal Services etc were covered.

The follow up surveys on the basis of Second Economic Census were carried out by the National Sample Survey Organization and State Directorates of Economics and Statistics on matching basis. The first survey on Hotel and Restaurants and Transport was conducted during the year 1988-89. The second survey on Unorganized Manufacturing Sector was conducted during the year 1989 - 90. Third follow up survey on Wholesale and Retail Trade during 1990 - 91. Fourth follow up survey was carried out on Service Sector in 1991 - 1992.

Economic Census-1990

The **Third Economic Census** was conducted during the year 1990, after a lapse of ten years. The third Economic Census was a complete enumeration of all enterprises in the Agricultural and Non- Agricultural sectors excluding those engaged in crop production and plantation extending both rural and urban areas. As in the case of second economic census the field work of the census was carried out along with the house listing operation of 1991 Population Census for operational convenience and cost effectiveness. The information collected include location of enterprises, nature of operation, type of ownership, social group of ownership, power/fuel used for the operation of enterprise, number of persons usually working and the details regarding the hired persons engaged in the enterprise.

Economic Census-1998

The **Fourth Economic Census** was carried out during the year 1998 in line with previous economic census under the guidance of Central Statistical Organization and with financial assistance of Government of India. The time of data collection was significant since the census was carried out after six years of the implementation of New Economic Policy by the Government of India in the year 1992. Compared to previous economic census, there was no deviation either in the subject coverage or in the scope of fourth Economic Census.

Economic Census-2005

The **Fifth Economic Census** was conducted during June - September 2005 in the state of Kerala. The time lag between the fourth and fifth Economic Census was seven years. The impact of new economic policy by the Govt. of India in 1992 was only partially captured by fourth Economic Census. The structure and composition of the economy underwent tremendous changes during these years and in this context fifth Economic Census was conducted in 2005.

The operation of fifth Economic Census was conducted by dividing the entire state in to two sectors – Rural and Urban and all households, structure / buildings and enterprises were visited and all the agricultural and non-agricultural economic activities except crop production and plantation were enumerated.

Chapter III

Sixth Economic Census in Kerala

Objectives

The Economic Census is conducted to measure the magnitude of change that takes place in the economy by studying the count and various characteristic features of enterprises set up in the country, like number of workers, activities, area wise operation etc. It provides an up-to-date frame from which samples could be drawn for collecting detailed information through follow-up surveys. The Economic Census also facilitates a comparative study of the performance of agricultural and non-agricultural enterprises-rural/urban break-up of enterprises and estimation of the contribution of unorganized sector to GDP through follow-up surveys. The Directory of Establishments employing ten or more workers will serve the local level planning purposes since it provides detailed information on number of establishments, number of workers by industry, type of ownership etc even at the micro level in the unorganized sector.

Scope and Coverage

The Sixth Economic Census was undertaken by enumerating all the agricultural and non-agricultural enterprises engaged in production and / or distribution of goods and / or services not for the sole purpose of consumption by the household / enterprise. All such economic activities except crop production, plantation, public administration, defence and compulsory social security service activities are under the purview of this census.

The activities of nomadic population were kept out of the purview of sixth Economic Census. The establishments engaged in illegal activities like smuggling, gambling, beggary, prostitution etc and those who work as domestic servants, wage-paid employees of casual nature, house hold members engaged in house hold chores, casual workers (loading / unloading, helping a mason or a carpenter, doing earth work for a contractor) etc were also kept out of the survey. House hold members working for other households and earning some money which is insignificant and those households depending on remittance, rent, interest, pension etc were also excluded from the survey.

Committees and Working Groups

At National Level, a Standing Committee was constituted under the chairmanship of Chief Statistician of India and Secretary, Ministry of Statistics and Programme Implementation provided overall direction and guidance for the conduct of Sixth Economic Census. Other members of the committee are listed in the **Annexure I**.

This Committee was assisted by a Working Group headed by Prof. S. P. Mukherjee, retired Professor and Head of Department of Statistics, Calcutta for the development of

concepts and definitions, strategy for conduct of field work, tabulation of data and dissemination of results. The Economic Census Unit of CSO provided all the technical and secretarial assistance to the Committees and Working Groups.

For the smooth conduct of the Economic Census as per the direction of Government of India, Government of Kerala have constituted State Level Steering Committee and District Level Monitoring Committees.

State Level Steering Committee

The Chief Secretary of the State was designated as the Ex-officio Chief Economic Census Commissioner of the State and the Director of Economics & Statistics as the Member Secretary. The other members of the Committee are enlisted in **Annexure II**.

District Level Monitoring Committees

The District Level Monitoring Committee was constituted under the Chairmanship of the District Collector, designated as the Ex-officio Chief Economic Census Commissioner of the District and Deputy Director of the District Office of Economics and Statistics as Member Secretary. The other members of the Committee are given in **Annexure II**.

Changes made in the Sixth Economic Census

(i) Coverage

The Sixth Economic Census covered all agricultural activities excluding crop production and plantation as followed since second Economic Census. The establishments engaged in Public Administration, Defence and Compulsory Social Security Activities were excluded during Sixth Economic Census as against Fifth Economic Census.

(ii) Schedule

In Sixth Economic Census two schedules were canvassed viz.,

- House and Establishment Listing Schedule (6A) and
- Directory of Establishments Schedule (6C) in the place of three schedules canvassed during fifth Economic Census.

The third schedule 6B was a derived schedule of summary information based on the information contained in House and Establishment Listing Schedule prepared by the enumerator. (Schedule formats are given at **Annexure-III**)

(iii) Inclusion of New Items /Changes made in Main Schedule i.e, House and Establishment Listing Schedule:

- Number of members in the household (HH);
- Number of wage earners /salaried employees in the HH;
- Number of establishments outside HH with fixed structure owned by HH members;
- Number of establishments outside HH without fixed structure owned by members;
- Number of establishments inside HH owned by HH members;

(Items under 'a' to 'e' above were included at the household level to guard against possible under-listing of establishments located within the household or those without fixed structure)

- Broad activity code (all activities divided into two-digit 24 broad activity codes);
- Three-digit NIC codes recorded in place of four-digit NIC codes earlier, to minimize wrong reporting of NIC codes;
- Data collected for handicraft/ handloom establishments for the first time;
- Information on ownership of proprietary establishments – gender, religion and social groups;
- Nature of operation: 'non perennial' was divided into casual and seasonal;
- Bar Codes along with Form Number were used for the first time to facilitate proper accounting of canvassed schedules.

(iv) Items Excluded from the Main Schedule i.e., House and Establishment Listing Schedule:

- Information on subsidiary activity (only information on major activity collected);
- Power used in entrepreneurial activity (confined to Directory of Establishment Schedule);
- Registration code (confined to Directory of Establishment Schedule);
- Number of children (male/ female) usually working.

(v) New Items Added in the Directory of Establishment Schedule:

- Do a computer and/or internet facility exist in the establishment?
- Whether using power in production of goods and services?
- Whether an exporting unit?
- Address of main office along with that of branch office with PAN and TAN numbers
- Registration information under 9 codes

Changes introduced by CSO

• Enumeration Blocks (EBs) of Population Census 2011 were used as primary geographical units for both urban and rural areas for the purpose of listing of establishments.

• Reference period for counting number of persons employed: In Fifth EC, last year / season was taken. For Sixth EC, number of persons employed on the last working day has been considered.

• Minimum qualification for enumerators and supervisors was prescribed for the first time for better understanding of the terms used in schedules and for ensuring proper collection of data. The minimum qualification are as under:

- Qualification of Enumerators: Higher Secondary

o Qualification of Supervisors: Graduation

- Developed a Logo for Sixth EC. The Logo has four elements viz. factory, gears, writing hand and common people. The factory symbolizes large scale industry, the gears symbolize the work and functionality with reference to economy and the common people represent small scale industry. The writing hand represents recording of the census data. The green colour shows ecology and the blue represent industrial functioning.

- CSO supplied Schedules to District Statistical Offices (DSO) / Head Quarters of DESs of all the States / UTs for maintaining uniformity in the schedules to facilitate proper data processing.

- A 'Census Kit' containing plastic folders for each of the three schedules, board, pencils, ball pens, sharpener, eraser, markers, chalk box, clips and calculator was provided to each enumerator and supervisor for safe keeping and facilitating proper collection of information. The NIC coding of the House and Establishment Listing Schedule-6A has been done by trained staff of DESs at respective DSOs.

- Information contained in Directory of Establishment Schedule is entered by trained officials of DSO for ensuring correct and complete addresses. Software was developed and training provided for it by Computer Centre, MoSPI.

- Abridged House List (AHL) and Layout Maps (LMs) of Population Census 2011 EBS were provided to the Enumerators to facilitate proper coverage.

- Wide publicity was made through print, audio and video media to communicate the masses about the importance of Sixth EC and soliciting their co-operation in data collection.

- Data collected was inspected at all levels and the same was cross validated by using information available with alternative sources such as number of industrial and commercial electricity connections at State / District level and Registrations in District Industries Centres and results based on NSS Reports in order to increase credibility of the information collected in the Census.

- Computer Centre, CSO undertook validation and tabulation of data of Sixth EC using the relevant Software, with connectivity provided to all the State / UT DESs, so that, all State/UT specific and All India tables of Sixth EC could generate with drag and drop operations.

Funds

Economic Census is a 100% centrally sponsored scheme and an amount of Rs.1945.25 lakh has been allotted to Kerala for conducting the Census. Under this Scheme posts of Joint Director-1, Assistant Director-1, Research Assistants-2, Statistical Assistant Grade-I - 3, and

Senior Computer - I and Steno Typist-I have been sanctioned for the smooth conduct of the survey in Kerala.

Training

An All-India Conference of State Secretaries in-charge of Planning and Statistics and Directors of Directorate of Economics and Statistics relating to implementation of the scheme was organized in New Delhi.

On the basis of the decision taken in this Conference, the Ministry conducted seven Regional Training Programs for the purpose of Training of Trainers at different places in India. A representative from Craft Council of India also participated in the training programme and provided instructions/clarification regarding handicrafts/handloom items for the proper identification and listing of handloom/handicrafts activities in the census.

A Regional Training Programme for the Southern States organized by CSO for the purpose of Training of Trainers was held at Thiruvananthapuram for two days.

State Level Training Programme was held at Thiruvananthapuram organized by the Directorate of Economics & Statistics, Kerala. Subsequently, Regional Level Training Programme for two days was held at Kottayam & Kozhikode districts. The district officials in turn provided training to field functionaries like Enumerators, Supervisors and Charge Officers.

Publicity

In order to make the public fully aware of its importance and ensure cent percent participation and co-operation, advertisements were made by the Central Statistical Office through newspapers, radio and TV Channels to promote Census operation. Besides, the State DES also gave wide publicity about the importance of the Census by means of posters, banners, pamphlets and bit notices, among the public.

Field Operation

The Economic Census was conducted during 1st May 2013 to 30th June 2013 in Kerala. There were 67,500 enumeration blocks in the 2011 Population Census consisting of around 150 households in each EB. The frame for Economic Census was the same as that of 2011 Population Census.

The field work was done by 9500 enumerators under the supervision of 2200 department / open field supervisors after thorough training at various levels.

Each and every household in Urban and Rural areas was enumerated and information collected on all enterprises including household and own account enterprises.

Chapter IV

Concepts & Definitions of Important Terms

The Concepts & Definitions of some of the important terms used in the Sixth Economic Census are given below.

Establishment: An establishment is a unit or an economic entity situated in a single location in which predominantly one kind of economic activity is carried out such that at least a part of the goods and / or services produced by the unit is sold.

Agricultural Establishment: An agricultural establishment for the purpose of this Census is one engaged in production of agricultural goods (other than crop production & plantation by the farmers or a group of farmers or any other agency), agricultural services, hunting, trapping and game propagation, livestock production, forestry and logging as well as fishing and aqua culture where at least some part of the production or services is sold out.

Non-Agricultural Establishment: Establishments engaged in activities other than agricultural activities are termed as non-agricultural establishment.

House Hold (HH): A house hold is a group of person usually living together and taking their meals from a common kitchen. It includes temporary stay-aways (those whose total period of absence from house hold is expected to be less than six months), but excludes temporary visitors and guests (with expected total stay of less than six months). A group of persons, who are unrelated to each other, live in a census house but do not take their meals from a common kitchen would not constitute an institutional household.

Census-House: A Census house is a building or a part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used, or recognized as a separate unit. It may be used for residential, commercial or for both purposes.

Enumeration Block: The ultimate area unit of enumeration in the Sixth EC is Population Census (2011) Enumeration Block (EB). An EB broadly covers about 120 households or a population of nearly 600 or so.

Handicraft/Handloom Activity: Handicraft describes a craft or occupation requiring skilled use of hands. Handicrafts are items made by hand, often using simple tools. These items can be functional, artistic and/ or traditional in nature.

Nature of Operation: If the entrepreneurial activity is carried on or likely to be carried on throughout the year more or less regularly, it is treated as perennial activity. If the activity of

the establishment is confined to a particular season, i.e. fixed months of a year, the same is called the seasonal activity. The economic activity of the establishment which is neither perennial nor seasonal is termed as casual.

Worker (Person Employed): All persons (including children under 15 years of age) working on the last working day prior to the date of fieldwork in the establishment, either as owners, members of the household, co-owner or partner or family members helping the owner in running the establishment including other persons engaged by the establishment, whether hired or not, besides regular and salaried employees, casual/daily wage labourers are considered as workers for the establishment.

Chapter V

Results at a Glance

The Sixth Economic Census presents the number of establishments operating in the State as well as the total employment in these establishments. The total number of establishments operating in the state is 3355004. According to fifth Economic Census 2782160 enterprises (excluding Public Administration, Defence, and Compulsory Social Security Services) were reported in the state. This shows a growth of 20.59% in the total number of establishments.

Table No.5.1: Broad Activity wise total number of establishments by sector and type.

Sl No	Activity	Type of establishment		
		Without Hired Worker	With at least one Hired Worker	Total
1	Agricultural Activities	958316	32603	990919
2	Non-Agricultural Activities	1592815	771270	2364085
	Total	2551131	803873	3355004

The establishments that engaged in agricultural activities are 990919, whereas the establishments engaged in non-agricultural activities are 2364085. In the case of the agricultural establishments, 69.75% are in the rural areas and only 30.25% in the urban areas. In the case of non-agricultural establishments, 47.11% are in the rural areas and 52.89% are in the urban areas.

During the fifth Economic Census the distribution of establishments were such that 75% of the establishments were in rural areas and only 25% in the urban areas. In the sixth Economic Census 53.80% of the establishments are located in the rural areas and 46.20% in the urban areas, ie, the spread of establishments have been increased in urban areas.

The rearing of livestock is the major agricultural activity which constitutes 92.98% of the agricultural establishments followed by fishing and aquaculture with a meagre 5.61% and the other establishments related to agriculture other than crop production & plantation and forestry & logging with 0.84% and 0.57% respectively.

The results of the survey depicts that the major chunk of the non-agricultural establishments are functioning in the urban areas, i.e. 52.89% (1250254 establishments) and 47.11% are functioning in the rural areas (i.e. 1113831 establishments).

The Sixth Economic Census was conducted in 11389216 number of census houses in the state. Accordingly, it has been found that 1343387 are functioning as commercial establishments, 6370234 are used solely for residential purpose, 2011617 are used for both residential cum commercial purposes and 1663978 are used for other purposes.

In the case of agricultural establishments 96.71% are functioning without any hired workers. Only 3.29% of the establishments engage at least one hired worker to carry out their day to day business. Similarly, it can be observed, that in the non- agricultural sector, 67.38% of the establishments are functioning without any hired worker and 32.62% of the establishments use at least one hired worker.

The results of Sixth Economic Census also paves light on the total number of employment generated in all these establishments. The total number of persons engaged in these establishments are 6918767, out of which 1326602 persons are engaged in agricultural activities and 5592165 persons in non - agricultural activities.
