# **PANCHAYAT LEVEL BUILDING STATISTICS**

**KASARAGOD DISTRICT**

**Department of Economics & Statistics  
Thiruvananthapuram  
2006**

## **Preface**

As per the recommendation of the National Statistical Commission, Government of Kerala has directed the Department of Economics and Statistics to collect building Statistics from the Panchayath areas of the state. Accordingly the department has started collecting Panchayath level building Statistics from the year 2001-2002 onwards. Based on this information department is presenting Panchayath wise Building Statistics of all the districts in a phased manner. The information relating to Kasargod district for the years 2001-02, 2002-03 and 2003-04 is included in this report. Besides average prices of some important building materials, average wages of building labour collected from district head quarters is also incorporated in this report.

The report is prepared by the combined effort of Sri. N.Vinayan Assistant Director, Smt.Kumari Geetha.B Research Officer, Smt.S.Beenा Research Assistant , Smt.S.Ushakumari, U.D.Compiler of Labour and Housing Unit under the guidance and coordination of Sri.K.Asokan Additional Director and Smt.T.Achamma Joint Director. The DTP work is done by Sri. S. Saseendran, U.D. Typist of Computer Division.

I place on record the appreciation to all the Staff of Kasaragod District as well as the staff in the Head Quarters who are associated with this venture. I hope this will be of great use to the Researchers, Planners and other data users.

**M.R.Balakrishnan  
Director**

Thiruvananthapuram,

Dated: 30/11/2006

## Chapter I

### Introduction

The housing sector plays very important role in the Economic uplift of a society and a crucial role in the economy of a country. Reliable housing data is a perquisite for formation of realistic housing policies. But we were collecting statistics only from the urban areas as per the request of National Buildings Organisation

But now as per the recommendation of National Statistical Commission, Department of Economics and Statistics is collecting Panchayath Level housing data also from 2001-02 onwards. Incorporating those data for the period from 2001-02, 2002-03, and 2003-04 we are presenting Panchayath level building statistics of all the districts. Panchayath level building statistics of Kasargod district is included in this report. Besides average quarterly prices of some important building materials and wages of building labour collected from the district head quarters is also included.

#### **Summary of findings:**

The total number of buildings constructed in Kasaragod district during 2001-02, 2002-03 and 2003-04 was 12440, 11483 and 12157 respectively. Year wise classification of buildings constructed during the period is given below.

| Period  | Residential Buildings |        |       |                     | Non residential buildings |            |               |        |       | Total No. of Buildings |       |
|---------|-----------------------|--------|-------|---------------------|---------------------------|------------|---------------|--------|-------|------------------------|-------|
|         | Dwelling houses       | others | Total | Percentage to total | Industrial                | Commercial | Institutional | Others | Total |                        |       |
| 2001-02 | 8640                  | 650    | 9290  | 74.68               | 92                        | 2154       | 90            | 814    | 3150  | 25.32                  | 12440 |
| 2002-03 | 8006                  | 708    | 8714  | 75.89               | 34                        | 1862       | 130           | 743    | 2769  | 24.11                  | 11483 |
| 2003-04 | 8511                  | 798    | 9309  | 76.57               | 39                        | 1933       | 99            | 777    | 2848  | 23.43                  | 12157 |

It is clear that majority of the building newly constructed in all the years are intended for dwelling purposes. During 2001-02, 74.68% of buildings used for residential purpose while 25.32% of buildings are used for other purposes. Similarly 75.89% and 76.57% of the buildings were used for residential purposes during 2002-03 and 2003-04 respectively. Buildings constructed for commercial purposes shows considerable increase.

## Owner ship

The ownership pattern of the newly constructed building is given below:

| Period  | Ownership         |        |       |                     |                   |            |        |                     |                           |
|---------|-------------------|--------|-------|---------------------|-------------------|------------|--------|---------------------|---------------------------|
|         | Private buildings |        |       |                     | Other buildings   |            |        |                     | Total number of buildings |
|         | Male              | Female | Total | Percentage to total | Govt/Local bodies | % to Total | Others | Percentage to total |                           |
| 2001-02 | 8310              | 3464   | 11774 | 94.65               | 224               | 1.80       | 442    | 3.55                | 12440                     |
| 2002-03 | 7736              | 3228   | 10964 | 95.48               | 238               | 2.07       | 281    | 2.45                | 11483                     |
| 2003-04 | 8124              | 3320   | 11444 | 94.14               | 275               | 2.26       | 438    | 3.60                | 12157                     |

Nearly 95% of the buildings are constructed by individuals in all the years. Again the sex wise ownership of the private buildings is considered about 71% of the buildings are owned by males while 29% of the buildings are owned by females.

### Sex wise Ownership ratio of private buildings

| Period  | Percentage of ownership of private buildings |        |        |
|---------|--|--------|--------|
|         | Male   | Female | Total  |
| 2001-02 | 70.58  | 29.42  | 100.00 |
| 2002-03 | 70.56  | 29.44  | 100.00 |
| 2003-04 | 70.99  | 29.01  | 100.00 |

## Roof types

A classification of the roofs of the newly constructed buildings is given below.

| Period  | Roof types |                     |        |                     |          |                     |        |                     |                 |                     |
|---------|------------|---------------------|--------|---------------------|----------|---------------------|--------|---------------------|-----------------|---------------------|
|         | Thatched   |                     | Tiled  |                     | Concrete |                     | others |                     | Total buildings |                     |
|         | Number     | Percentage to total | Number | Percentage to total | Number   | Percentage to total | Number | Percentage to total | Number          | Percentage to total |
| 2001-02 | 839        | 6.74                | 2937   | 23.61               | 8149     | 65.51               | 515    | 4.14                | 12440           | 100                 |
| 2002-03 | 646        | 5.63                | 2420   | 21.07               | 8040     | 70.02               | 377    | 3.28                | 11483           | 100                 |
| 2003-04 | 543        | 4.47                | 2442   | 20.08               | 8682     | 71.42               | 490    | 4.03                | 12157           | 100                 |

It is clear that concrete buildings are common in construction purpose. About 65-70% of newly constructed building in the district are concrete type roofing. The proportion of construction of tiled and thatched houses are in low rate.

Table 1
